

## **Simplified Process for Internal Market Movements (SPIMM) or UK Carrier (UKC) Scheme: Introduction to Declaration Category Data Sets**

### **Introduction:**

These data sets may only be used for imports to Northern Ireland (NI) from Great Britain (GB) using Simplified Process for Internal Market Movements (SPIMM) or UK Carrier (UKC) Scheme for Post and Parcel Movements. Where goods are not eligible for SPIMM or UKC, the procedures contained in [Other NI Goods Movements](#) Completion Instructions must be used.

Guidance on what goods may be imported using SPIMM or UKC may be found [here](#).

### **Simplified Process for Internal Market Movements (SPIMM) or UK Carrier (UKC) Scheme Data Sets:**

These data sets provide a detailed breakdown of the specific data elements needed for each declaration category that may be used for imports into Northern Ireland using SPIMM or UKC.

There are four data sets:

- [Simplified Process for Internal Market Movements \(SPIMM\): Declaration Category Data Set H8](#)
- [Simplified Process for Internal Market Movements \(SPIMM\): Declaration Category Data Set I1 C&F](#)
- [Simplified Process for Internal Market Movements \(SPIMM\): Declaration Category Data Set C21i EIDR NOP](#)
- [Simplified Process for Internal Market Movements \(SPIMM\) or UK Carrier \(UKC\) Scheme: Declaration Category Data Set C21i](#)

### **Notes:**

Each data set table states whether the data element is mandatory in all cases, optional for the declarant or dependant on the circumstances being declared.

Each data set table identifies the requirements for completion of the appropriate data elements on a customs declaration, C21i Customs Clearance Request (CCR) or C21i EIDR NOP dependent on the individual declaration category.

Data elements which are not required for a certain declaration category have been removed from the tables.

Reading Notes are available to assist in understanding the data set tables. A reduced set of Reading Notes that apply to SPIMM and UKC may be found [here](#).

For the full set of Reading Notes refer to [Declaration Category Data Sets Reading Notes](#).
