Appendix 4B: New National AI codes

The following new National AI codes are required:

Coverage	AI Statement Code	Details to be Declared
Goods entered to Temporary Admission (TA) where the individually released products are being declared as a single goods item on an Aggregated Supplementary Declaration. Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used with an Aggregated supplementary declaration. <i>Note: AI code AGGTA is only required on a single goods item.</i>	AGGTA	Enter: The total number of individual goods movements being included in the aggregated supplementary declaration. <i>For example AGGTA 15. This indicates that 15 different I1 C&Fs are being included within the aggregated supplementary declaration.</i>
Free Circulation goods entered into Temporary Admission (TA) in Northern Ireland (NI) whilst the 'At Risk' status of the goods is being determined (Article 5(1) and 5(2) of the NI Protocol). Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used to enter goods into Temporary Admission while the 'at risk' status of the goods is being determined. <i>Note: AI code NIDOM must also be declared on all goods items ARPEN is declared on.</i>	ARPEN	-
Goods entered to a Temporary Admission (TA) where the individually released products are being declared as separate goods items on a single Recapitulative Supplementary Declaration. Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used with a Recapitulative supplementary declaration. <i>Note: AI code RSDTA is only required on a single goods item.</i>	RSDTA	Enter: the total number of individual goods movements being included on the recapitulative supplementary declaration. <i>For example RSDTA 15. This indicates that 15 different I1 C&Fs are being included within the recapitulative supplementary declaration.</i>

GOV.UK Alert Message

Current text:

Please refer to [Appendix 4: DE 2/2 Additional Information Statement Codes](#) for the relevant codes and details to be declared (for example, GEN45 authorisation holder's consignment reference).

Appendix 4 includes the codes for all AI statements that may be used on CDS. Where both Union and National AI statements are being declared, enter any Union AI statements first. Union AI statements will begin with a number.

The following AI statements may be required in DE 2/2:

Coverage	AI statement code	Details to be declared
Authorisation by Customs Declaration only: Special Procedure Authorisation granted on the declaration at the time of entry to the procedure.	00100	Enter 'Simplified authorisation' Note: Users of an Authorisation by Customs Declaration should refer to Appendix 4: DE 2/2 Additional Information Statement Codes which may be required for the specific operation.
Consignment/work number.	GEN45	Enter the unique reference number, allocated to the consignment/work by the authorisation holder.
Temporary Admissions	GEN21, GEN24, GEN27, GEN28 — GEN36, PAL01, PAL02, PAL03	Select the appropriate code from Appendix 4: DE 2/2 Additional Information Statement Codes for the specific TA circumstances or DE 1/11 Additional Procedure code being used.

Coverage	AI statement code	Details to be declared
Duty calculation override Note: this code is only to be used where the amount of duty payable is being manually calculated, as required by the customs procedure.	OVR01	Enter 'Duty override claimed' followed by a plain text description of the reason for the override. For example: Duty override claimed Temporary Admission with Partial Relief Note: This may only be used with Additional Procedure code D51 in DE 1/11. A full TA authorisation is required.

Amended Text:

Please refer to [Appendix 4: DE 2/2 Additional Information Statement Codes](#) for the relevant codes and details to be declared (for example, GEN45 authorisation holder's consignment reference).

Appendix 4 includes the codes for all AI statements that may be used on CDS. Where both Union and National AI statements are being declared, enter any Union AI statements first. Union AI statements will begin with a number.

The following AI statements may be required in DE 2/2:

Coverage	AI statement code	Details to be declared
Authorisation by Customs Declaration only: Special Procedure Authorisation granted on the declaration at the time of entry to the procedure.	00100	Enter 'Simplified authorisation' Note: Users of an Authorisation by Customs Declaration should refer to Appendix 4: DE 2/2 Additional Information Statement Codes which may be required for the specific operation.
Goods entered to Temporary Admission (TA) where the individually released products are being declared as a single goods item on an Aggregated Supplementary Declaration. Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used with an Aggregated supplementary declaration. <i>Note: AI code AGGTA is only required on a single goods item.</i>	AGGTA	Enter: The total number of individual goods movements being included in the aggregated supplementary declaration. <i>For example AGGTA 15. This indicates that 15 different I1 C&Fs are being included within the aggregated supplementary declaration.</i>
Free Circulation goods entered into Temporary Admission (TA) in Northern Ireland (NI) whilst the 'At Risk' status of the goods is being determined (Article 5(1) and 5(2) of the NI Protocol). Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used to enter goods into Temporary Admission while the 'at risk' status of the goods is being determined.	ARPEN	-

Coverage	AI statement code	Details to be declared
<i>Note: AI code NIDOM must also be declared on all goods items ARPEN is declared on.</i>		
Consignment/work number.	GEN45	Enter the unique reference number, allocated to the consignment/work by the authorisation holder.
Temporary Admissions	GEN21, GEN24, GEN27, GEN28 — GEN36, PAL01, PAL02, PAL03	Select the appropriate code from Appendix 4: DE 2/2 Additional Information Statement Codes for the specific TA circumstances or DE 1/11 Additional Procedure code being used.

Coverage	AI statement code	Details to be declared

GOV.UK Alert Message

Current text:

Please refer to [Appendix 4: DE 2/2 Additional Information Statement Codes](#) for the relevant codes and details to be declared (e.g. GEN45 authorisation holder's consignment reference).

Appendix 4 includes the codes for all AI statements that may be used on CDS. Where both Union and National AI statements are being declared, enter any Union AI statements first. Union AI statements will begin with a number.

The following AI statements may be required in DE 2/2:

Coverage	AI statement code	Details to be declared
Authorisation by Customs Declaration only: Special Procedure Authorisation granted on the declaration at the time of entry to the procedure.	00100	Enter 'Simplified authorisation' to enter the goods to TA. Enter 'Discharge of Simplified Authorisation' to discharge IP. Note: Users of an Authorisation by Customs Declaration should refer to Appendix 4: DE 2/2 Additional Information Statement Codes which may be required for the specific operation.
Full authorisation holders only: Discharge of Inward Processing (Article 241(1) EU Reg. No. 2015/2446 (DA)).	10200	Enter 'IP' followed by the relevant authorisation number or INF number.
Discharge of Inward Processing (specific commercial policy measures): Where goods placed under the inward processing procedure are subject to specific commercial policy measures and such measures continue to be applicable at the time when the goods, whether in the form of processed products or not, are placed under a subsequent customs procedure (refer to Pay less or no duty on goods you store, repair, process or temporarily use).	10300	Enter 'IP CPM'.
Consignment/work number.	GEN45	Enter the unique reference number, allocated to the consignment/work by the authorisation holder.
Temporary Admissions	GEN21, GEN24, GEN27, GEN28 — GEN36, PAL01, PAL02 PAL03	Select the appropriate code from Appendix 4: DE 2/2 Additional Information Statement Codes for the specific TA circumstances or DE 1/11 Additional Procedure code being used.

Coverage	AI statement code	Details to be declared
Use with A.86(3) Union Customs Code (UCC) debt rules only: Declaration that the IP authorisation holder is using the Article 86(3) EU Reg. No. 952/2013 (UCC) customs debt rules. This AI code must be used with DE 1/11 Additional Procedure Code F44. See DE 1/11 Additional Procedure Code notes for details.	GEN86	Enter 'Article 86(3)'.
Duty calculation override Note: this code is only to be used where the amount of duty payable is being manually calculated, as required by the customs procedure.	OVR01	Enter 'Duty override claimed' followed by a plain text description of the reason for the override. For example: Duty override claimed Temporary Admission with Partial Relief Note: This may only be used with Additional Procedure code D51 in DE 1/11. A full TA authorisation is required.

Amended Text:

Coverage	AI statement code	Details to be declared
Goods entered to Temporary Admission (TA) where the individually released products are being declared as a single goods item on an Aggregated Supplementary Declaration. Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used with an Aggregated supplementary declaration. <i>Note: AI code AGGTA is only required on a single goods item.</i>	AGGTA	Enter: The total number of individual goods movements being included in the aggregated supplementary declaration. <i>For example AGGTA 15. This indicates that 15 different I1 C&Fs are being included within the aggregated supplementary declaration.</i>
Free Circulation goods entered into Temporary Admission (TA) in Northern Ireland (NI) whilst the 'At Risk' status of the goods is being determined (Article 5(1) and 5(2) of the NI Protocol). Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used to enter goods into Temporary Admission while the 'at risk' status of the goods is being determined. <i>Note: AI code NIDOM must also be declared on all goods items ARPEN is declared on.</i>	ARPEN	-
Consignment/work number.	GEN45	Enter the unique reference number, allocated to the consignment/work by the authorisation holder.

Coverage	AI statement code	Details to be declared
Temporary Admissions	GEN21, GEN24, GEN27, GEN28 — GEN36 PAL01, PAL02, PAL03	Select the appropriate code from Appendix 4: DE 2/2 Additional Information Statement Codes for the specific TA circumstances or DE 1/11 Additional Procedure code being used.
Duty calculation override Note: this code is only to be used where the amount of duty payable is being manually calculated, as required by the customs procedure.	OVR01	Enter 'Duty override claimed' followed by a plain text description of the reason for the override. For example: Duty override claimed Temporary Admission with Partial Relief. Note: This may only be used with Additional Procedure code D51 in DE 1/11. A full TA authorisation is required.
Premises Name and Address. Note: If the premises code in DE 2/7 (Identification of Warehouse) is that of a UK allocated warehouse, do not complete a PREMS AI Statement.	PREMS	Enter the full name, address and country of the warehouse where the goods can be examined. Enter the Premises Country Code as a suffix to the Premises Name and Address separated by a '- '.
Goods entered to a Temporary Admission (TA) where the individually released products are being declared as separate goods items on a single Recapitulative Supplementary Declaration. Use this AI code only when Procedure Codes 5300, 5351, 5353, 5371, 5378 are being used with a Recapitulative supplementary declaration.	RSDTA	Enter: the total number of individual goods movements being included on the recapitulative supplementary declaration. <i>For example RSDTA 15. This indicates that 15 different 11 C&Fs are being included within the recapitulative supplementary declaration.</i>

Coverage	AI statement code	Details to be declared
<i>Note: AI code RSDTA is only required on a single goods item.</i>
